

2024 Summer Opportunities

Below is a list of summer opportunities hosted by Heights Philadelphia

Steppingstone Academy

Serving: Rising 5th–Rising 8th graders

Student Program Dates: July 8th, 2024–August 2nd, 2024

The Steppingstone Academy Summer Program is a time for students to strengthen their academic skills while school is out. By providing rigorous learning opportunities, we develop our scholars' critical thinking, writing, and reading skills through our math, science, ELA, electives, and advisory courses. It's also a time to explore the arts, interests, and college exposure, as we encourage our scholars to be curious learners and stretch their academic abilities in our Academy program!

Middle Grades Summer Bridge

Serving: Current 6th and 7th grade students

Student Program Dates: July 1st, 2024–August 2nd, 2024

Discover our Middle Grades Bridge Summer Program, bridging the transition from middle to high school with academic enrichment and personal growth. Tailored for 6th–7th graders, students explore math, career pathways, and high school prep, including science and math classes. Led by part-time teachers, our program offers field trips, fun events, and stipends for participants. Running alongside the 9th–grade bridge program ensures a smooth transition. Join us for a transformative summer, equipping students with essential skills for success in high school and beyond.

9th Grade Bridge

Serving: Current 8th graders residing in Philadelphia

Student Program Dates: July 1st, 2024–August 2nd, 2024

9th Grade Summer Bridge is a month-long summer program designed to empower students with academic enrichment and personal growth! Our curriculum includes engaging classes in math, biology, and English Language arts (ELA), providing a comprehensive academic experience. Students will take part in field trips and inspiring college/university tours broadening their summer horizons beyond the classroom. The highlight of the program is our Youth Empowerment Conference, where students gain invaluable insights and tools for personal development. Focused on the transition from the middle school to high school space, with a strong emphasis on high school preparation.
